

17 May 2024

Dear Parents/Caregivers

RE: Year 10 Career Development Day

On Tuesday 28 May all Year 10 students will participate in a career development day.

Career development activities are designed for students to reflect on their unique strengths and interests and how they may relate to the world of work. Students participate in activities that develop their skills and understanding while also becoming more aware of the future education and occupational opportunities available to them.

Students have the choice of activities depending on their future goals and aspirations. A survey has been sent to students to select their preferred destination. Please discuss their selection with them to ensure they are making a good choice of activity.

University of Western Australia

Students will spend the day on the UWA campus participating in a range of lectures, workshops and campus orientation activities.

Yalagan TAFE

Students will spend the day at the training facility participating in nationally-accredited White Card health and safety training so they are certified to attend any construction-related work environments through future work or TAFE placements. Students will also have the opportunity to drive Metronet trains using the rail simulator and use power tools for a small project.

Disability Service Providers

By invitation only some students will visit a range of workplaces for students with a disability to familiarise themselves with work environments and opportunities for the future.

Information

| | |
|-------------------|---|
