

# Third Party Clinical Access Agreement

The main purpose of schooling is the delivery of education programs during school hours.

When working in the school, an external service provider's role is to contribute to positive educational outcomes for the student, in a planned, collaborative manner. External services support the role of the teacher to enhance the educational outcomes and goals for the student and must link directly to a student's existing individualised plan.

Entry and access to the school are always at the discretion of the principal. In considering the school's duty of care towards all staff and students, principals can discontinue access to a provider if:

- the service no longer supports the student's educational needs;
- the service is impacting other students, staff, or school operations;
- the service is unreliable or breaches the Third-Party Clinical Access Agreement; or
- the provider has displayed inappropriate conduct as per the school's *Code of Conduct*.
